RU180 LIMITED WARRANTY

Qingdao Feilereach Industry and Trade Co.,Ltd (the "Vendor") warrant to the purchaser (the "Buyer") for a limited period, as stated below, that the Vendor's synthetic underlayment (referred to as the "Product") will meet the "Pass" requirements of ICC-ES AC188 for its liquid water holdout property in effect at the time of purchase. This Limited Warranty is non-transferable and will only apply where the Product and primary roof covering have been installed as per the correct installation method recommended by the respective manufacturer on the Date of Purchase. Incorrect installation of either the Product or primary roof covering will result in this Limited Warranty being void. Usage of the Product for any purpose other than underlayment will void this Limited Warranty. This Limited Warranty will be void if any part of the product is exposed to UV after installation of the primary roof covering or the Product has been installed and left uncovered without the primary roof covering for a period greater than 180 days.

This Limited Warranty is provided by the Vendor for a period of 40 years from the date of purchase. For the purposes of this Limited Warranty, the "Date of Purchase" is herein defined as the date upon which the Product is unconditionally appropriated for the Buyer.

The Vendor shall have no obligation under this Limited Warranty until such time the Vendor has been paid in full as per the terms offered, in an approved form of payment. Any payment to the Vendor which is completed not in compliance with the agreed upon contractual terms will immediately void this warranty. There are no external, oral, or other warranties and/or representations, express or implied, except as indicated in this instrument. Any past dealings between the Vendor and Buyer will not expand the scope of this Limited Warranty. Where arbitration does not lead to resolution, the applicable law for any relevant issue will be that of the jurisdiction of British Columbia.

The Buyer shall notify the Vendor within 30 business days, in writing, of any detected defect. The Buyer shall provide the Vendor with unrestricted access so the area may be inspected. The Buyer must provide original proof of purchase and must also authenticate the original date of the Product's installation.

Where the Buyer has successfully shown that a manufacturing defect in the Product has resulted in the Product not shedding water and this Limited Warranty's application has not been excluded due to the above listed conditions or terms, replacement underlayment may be provided in lieu of monetary compensation. The replacement underlayment is warranted only for the remainder of the original underlayment Limited Warranty. Shipping and other costs incurred for the delivery or installation of replacement underlayment will be the responsibility of the Buyer.
